

Concerning Broadcast Ownership Regulations:

The American public is already subjected to media bias and censorship in the mainstream news, which comes as a direct result of only a handful of companies running the corporations.

Political and lobbyist pressure have degraded the quality and diversity of the broadcast news.

Please do not seek to relax media ownership rules. This would only result in smaller alternative TV broadcast companies being gobbled up by the fat bloated billion dollar corporations that dish out mostly retarded TV programming geared to the 12 year old mind.

Thank You
